No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps			
I.	I. Hedge funds							
1	Registration, appropriate disclosures	We also firmly recommitted to work in an internationally consistent and non-	Implementation of this recommendation was reported to be completed by all FSB					
(1)	and oversight of hedge funds	discriminatory manner to strengthen regulation and supervision on hedge funds. (Seoul)	jurisdictions in the 2016 IMN survey. Given this, the reporting of progress with respect to this recommendation will take place every 2-3 years henceforth					
		Hedge funds or their managers will be registered and will be required to disclose appropriate information on an ongoing basis to supervisors or regulators, including on their leverage, necessary for assessment of the systemic risks they pose individually or collectively. Where appropriate registration should be subject to a minimum size. They will be subject to oversight to ensure that they have adequate risk management. (London)	(i.e. in 2019 or 2020).					

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
2 (2)	Establishment of international information sharing framework	We ask the FSB to develop mechanisms for cooperation and information sharing between relevant authorities in order to ensure effective oversight is maintained when a fund is located in a different jurisdiction from the manager. We will, cooperating through the FSB, develop measures that implement these principles by the end of 2009. (London)	Jurisdictions should indicate the progress made in implementing recommendation 6 in IOSCO's Report on Hedge Fund Oversight (Jun 2009) on sharing information to facilitate the oversight of globally active fund managers. In addition, jurisdictions should state whether they are: - Signatory to the IOSCO MMoU in relation to cooperation in enforcement - Signatory to bilateral agreements for supervisory cooperation that cover hedge funds and are aligned to the 2010 IOSCO Principles Regarding Cross-border Supervisory Cooperation. Jurisdictions can also refer to Principle 28 of the 2010 IOSCO Objectives and Principles of Securities Regulation, and take into account the outcomes of any recent FSAP/ROSC assessment against those Principles.	□ Not applicable □ Applicable but no action envisaged at the moment If "Not applicable" or "Applicable but no action envisaged" has been selected, please provide a brief justification: □ Implementation ongoing: Status of progress [for legislation and regulation/guidelines only]: □ Draft in preparation, expected publication by: □ Draft published as of: □ Final rule or legislation approved and will come into force on: □ Final rule (for part of the reform) in force since: □ Implementation completed as of: 01.07.2013 Issue is being addressed through: □ Primary / Secondary legislation □ Regulation /Guidelines □ Other actions (such as supervisory actions), please specify: Short description of the content of the legislation/ regulation/guideline: This is part of the AIFMD, an EU directive that also provides a European framework for cross border oversight for investment funds. The Netherlands has implemented the AIFMD as of July 2013.	If this recommendation has not yet been fully implemented, please provide reasons for delayed implementation: Planned actions (if any) and expected commencement date: Web-links to relevant documents:

3 (3)	Enhancing counterparty risk management	Supervisors should require that institutions which have hedge funds as their counterparties have effective risk management, including mechanisms to monitor the funds' leverage and set limits for single counterparty exposures. (London) Supervisors will strengthen their existing guidance on the management of exposures to leveraged counterparties. (Rec. II.17, FSF 2008)	Jurisdictions should indicate specific policy measures taken for enhancing counterparty risk management and strengthening their existing guidance on the management of exposure to leveraged counterparties. In particular, jurisdictions should indicate whether they have implemented recommendation 3 of the IOSCO Report on Hedge Fund Oversight (Jun 2009). In their responses, jurisdictions should not provide information on the portion of this recommendation that pertains to Basel III, since it is monitored separately by the BCBS. Jurisdictions can also refer to Principle 28 of the 2010 IOSCO Objectives and Principles of Securities Regulation, and take into account the outcomes of any recent FSAP/ROSC assessment against those Principles.	□ Not applicable □ Applicable but no action envisaged at the moment If "Not applicable" or "Applicable but no action envisaged" has been selected, please provide a brief justification: □ Implementation ongoing: Status of progress [for legislation and regulation/guidelines only]: □ Draft in preparation, expected publication by: □ Draft published as of: □ Final rule or legislation approved and will come into force on: 1-11-2007 □ Final rule (for part of the reform) in force since: □ Implementation completed as of: 1-11-2007 □ Issue is being addressed through: □ Primary / Secondary legislation □ Regulation /Guidelines □ Other actions (such as supervisory actions), please specify: Short description of the content of the legislation/regulation/guideline: The EU CRD-IV package has transposed the Basel 3 rules on (counterparty) credit risk to European legislation. This package has also been fully transposed in Dutch law as of 30 September 2014. Credit exposures to highly leveraged counterparties are implemented in the Capital Requirement Regulation (CRR) art 180.1.a and BCBS	Planned actions (if any) and expected commencement date: In November the European Commission published a proposal containing several measures to further implement the Basel standards in relation to e.g. counterparty credit risk, large exposure limits and equity exposures to funds. The Council is now discussing these proposals. It is likely an agreement between Council and Parliament will not yet be reached this year. 				FAQ 1b.4 will be respected. Also relevant are CRR articles 132 and 152 that relate to banks' equity investments in funds. The CRR also includes detailed provisions related to large exposures/large exposure limits. Adherence to the IOSCO principles is covered in the EUAIFM directive. This directive was implemented in the Netherlands in July 2013.	
				Highlight main developments since last year's survey:	
				In November the European Commission published a proposal containing several measures to further implement the Basel standards in relation to e.g. counterparty credit risk, large exposure limits and equity exposures to funds. The implementation of this proposals would further enhance compliance with the G20/FSB-recommendation.

				actions), please specify: Short description of the content of the	

I		TEL 1 C1 CT 2012 C 1	1
		Thereby, as of 1st of January 2013 financial	
		institutions must have a product approval	
		process for financial products. For	
		insurance companies EU legislation relating	
		to the (re)insurance sector (Solvency II)	
		introduces requirements on insurers' ability	
		to invest in repackaged loans, which are	
		consistent with those being introduced in	
		the banking sector. Under these proposals,	
		insurance and reinsurance undertakings	
		investing in ABS will likely be subject to:	
		(i) Capital Requirements for all types of	
		investments calibrated as a 99.5% value at	
		risk over a 1 year time horizon; (ii) Higher	
		market risk capital requirements for re-	
		securitization exposures, especially when	
		only one or no external credit assessment is	
		available; (iii) A prudent person principle	
		that limits insurance and reinsurance	
		undertakings' investments to assets that	
		they can properly identify, measure,	
		monitor, manage, control and report. In	
		particular, provisions are currently being	
		discussed that will require insurance and	
		reinsurance undertakings that invest in the	
		securities to be allowed to make their	
		decisions only after conducting	
		comprehensive due diligence in the context	
		of the Solvency II implementing measures;	
		(iv) Important enhancements regarding how	
		insurance and reinsurance undertakings	
		should manage the risks of securitization	
		positions (written monitoring procedures,	
		specific reporting to management body,	
		etc.) that are currently being discussed in	
		the context of the Solvency II implementing	
		measures; and (v) In order to ensure	
		transparency, requirements to publicly	
		disclose information about any investments	
		in repackaged loans.

6 (6)	Enhanced disclosure of securitised products	Securities market regulators should work with market participants to expand information on securitised products and their underlying assets. (Rec. III.10-III.13, FSF 2008)	Jurisdictions should indicate the policy measures and other initiatives taken in relation to enhancing disclosure of securitised products, including working with industry and other authorities to continue to standardise disclosure templates and considering measures to improve the type of information that investors receive. See, for reference, IOSCO's Report on Principles for Ongoing Disclosure for Asset-Backed Securities (Nov 2012), Disclosure Principles for Public Offerings and Listings of Asset-Backed Securities (Apr 2010) and report on Global Developments in Securitisation Regulations (November 2012), in particular recommendations 4 and 5.	□Not applicable □Applicable but no action envisaged at the moment If "Not applicable" or "Applicable but no action envisaged" has been selected, please provide a brief justification: □Implementation ongoing: Status of progress [for legislation and regulation/guidelines only]: □Draft in preparation, expected publication by: □Draft published as of: □Final rule or legislation approved and will come into force on: □Final rule (for part of the reform) in force since: ☑Implementation completed as of: 21.05.2013/2009 Issue is being addressed through: □Primary / Secondary legislation □Regulation /Guidelines □Other actions (such as supervisory actions), please specify: Short description of the content of the legislation/regulation/guideline: [please refer to the European Commission response to this question] Highlight main developments since last year's survey:	If this recommendation has not yet been fully implemented, please provide reasons for delayed implementation: Planned actions (if any) and expected commencement date: The Delegated Regulation contains for the moment disclosures templates only for structured finance instruments backed by certain categories of assets. ESMA shall continue work on additional templates in order to cover all the scope of application of art. 8b of the CRA III Regulation. Such new templates will be adopted by the Commission by way of amendment of the existing Delegated Regulation. ESMA should establish the guidelines for enforcement and supervision of Art. 8b of the CRA 3 Regulation by national competent authorities (NCAs). ESMA shall set up a website for the publication of the information on structured finance instruments (referred to in art. 8b of the CRA 3 Regulation) by 1st January 2017. Commission has published a draft legislative proposal on securitisation, which amongst others things, aims at streamlining and improving the consistency of due diligence and disclosure requirements of different legislative frameworks (Prospectus, CRR/CRD IV, AIFMD, CRA3 and Solvency II) which are applicable to structured finance instruments. Trilogue discussion are currently underway on this proposal.

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
			Guidance on Liquidity management and planning (Oct 2014) FSB: Framework for addressing SIFIs (Nov 2011)	CRR as approved by the European Parliament and the European Council implement in the EU the BCBS' assessment methodology of global systemically important banks and the related additional loss absorbency requirement as well as BCBS' principles for dealing with domestic systemically important banks. A Delegated Regulation and an Implementing Regulation on the methodology of G-SII (Global Systemically Important Institutions) identification and disclosure were adopted by the Commission in 2014. EBA also adopted: - Guidelines on disclosure of indicators of global systemic importance, and - Guidelines on criteria to assess other systemically important institutions (O-SIIs). The Netherlands makes use of the national discretion foreseen in Capital Requirements Directive IV to impose Other-SIFI buffer and Systemic Risk Buffers to the domestic SIFIs. Moreover, Capital Requirements Directive IV also requires EU Member States with a G-SIFI within their jurisdiction to impose a G-SIFI buffer. In the Netherlands the banking supervisor (De Nederlandsche Bank) has announced on 29 April 2014 it will impose a systemic risk buffer of 3% RWA for the three largest Dutch banks and 1% RWA other-SIFI buffer for a fourth bank. The build-up of the buffers will formallyneed to be completed by 2019. In addition, in December 2015 the Dutch central bank updated its framework to identify systemically relevant banks, based on new guidlines issued by the European Banking Authority. As a consequence, one additional (fifth) bank was designated to be systemically relevant (BNG Bank)	

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				and subsequently a 1% RWA other-SIFI	
				buffer was imposed. Supervision and	
				supervisory practices For euro area	
				Member States, the establishment of the Banking Union with the Single	
				Supervisory Mechanism that entered into	
				force in November 2013 - and the ECB	
				that assumed its full responsibilities on 4	
				November 2014 - will allow for an even	
				greater consistency in supervision and	
				regulation of SIFI (banks). With regard	
				to financial conglomerates, the	
				Netherlands has implemented the EU	
				2002 Financial Conglomerates Directive	
				(2002/87/EG) and the amending	
				Directive (2011/89/EU). The	
				Netherlands therefore complies with the	
				Principles for the Supervision of	
				Financial Conglomerates of 2012. Any new elements included in the 2012	
				Principles in comparison to the 1999	
				Principles will be implemented in Dutch	
				legislation as soon as a revision of the	
				EU Directive takes account of those	
				elements. Resolution planning and bail-	
				in As regards recovery and resolution,	
				the EU-wide Bank Recovery and	
				Resolution Directive (BRRĎ) has been	
				adopted and will apply from January	
				2015. It requires Member States to equip	
				authorities with the necessary tools and	
				powers to ensure that the distress or	
				failure of all banks and large investment firms can be managed in an orderly way,	
				preserving financial stability and	
				protecting taxpayers in the process. The	
				BRRD will help ensure coordinated	
				resolution action regarding SIFIs in	
				Europe. For Euro Area and other	
				Member States participating in the	
				Banking Union, the rules of the BRRD	
				will be applied from 2016 by the Single	
				Resolution Mechanism. The SRM	

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				integrates key aspects of the coordination and decision-making structure applicable to resolution planning and the resolution of banks and replaces national resolution funds with a Single Resolution Fund in participating Member States. In the Netherlands, the law implementing the BRRD has entered into force on 26 November 2015. Insurance sector: For the insurance sector the implementation of the IAIS recommendations for G-SIIs is on-going and addressed via supervisory actions and monitoring. There is no EU legislation for G-SIIs specifically. On the basis of the IAIS recommendations one insurer in the Netherlands has been identified as G-SII. The supervisor requires this G-SII to set up a recovery plan.	
				Highlight main developments since last year's survey:	
				The draft law implementing the BRRD in the Netherlands was sent to Parliament in May 2015 and was adopted in november 2015. In addition, since 1 January the phasing in of the combined capital buffer requirement has commenced, which includes the buffer requirements for global and other systemically important institutions. As mention above, in the Netherlands this means that the implemenation of the systemic risk buffer commenced as of 2016. Currently work is ongoing on a revision of the recovery and resolution regime for insurers. A new comprehensive resolution regime, based on the BRRD, is envisioned. Entry into force is foreseen for Q4 2017.

				Issue is being addressed through:	
				☑ Primary / Secondary legislation	
				☐ Regulation / Guidelines	
				☐ Other actions (such as supervisory actions), please specify:	
				Short description of the content of the legislation/ regulation/guideline:	
				Firstly, the Dutch central bank (DNB) is the macroprudential authority under the national implementation of the CRD-IV package. This will confer several macroprudential instruments upon DNB to execute its recently formalized explicit	

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				responsibility for financial stability.	
				These instruments include the	
				countercyclical buffer, the systemic risk	
				buffer, increasing risk weights and LGDs of real estate or financial sector	
				exposures for designated groups of	
				banks, amongst others. DNB has also	
				established a special department for the	
				surveillance of macroprudential risks,	
				and semi-annually publishes a	
				monitoring excersise of financial	
				stability risks, namely the Overview	
				Financial Stability. DNB has been given special additional powers in a new law to	
				request more information regarding	
				macroprudential risks. Secondly, the	
				minister of Finance has established the	
				so-called Financial Stability Committee	
				(FSC). The Financial Stability	
				Committee's task is to identify risks to	
				financial stability in the Netherlands, and	
				to make recommendations with respect	
				to these risks. In this committee, representatives of DNB, the Netherlands	
				Authority for the Financial Markets and	
				the Ministry of Finance discuss	
				developments relating to the stability of	
				the financial system in the Netherlands.	
				The committee meets at least twice a	
				year and is chaired by DNB president	
				Klaas Knot. (Both supervisors carry out	
				their tasks and responsibilities independently from the Ministry; and the	
				Ministry has no vote in the committee.)	
				The existence of the FSC strengthens the	
				structure of responsibility for	
				macroprudential analysis significantly,	
				and facilitates policy coordination and	
				consistency. Thirdly, following the	
				ESRB Regulation, the responsibility of	
				macro-prudential oversight has been	
				entrusted to the European Systemic Risk	
				Board (ESRB). In pursuing its macro-	

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				prudential mandate, the ESRB performs a number of key activities, namely risk monitoring, risk assessment and, ultimately, if deemed appropriate, it adopts warnings and recommendations. Going forward, with the establishment of the Banking Union as of 1 November 2014 the ECB as single supervisor will also have some macro-prudential competences within the Single Supervisory Mechanism (SSM). In sum, the SSM Regulation provides that while the initiative for macro-prudential measures remains at national level, the ECB can apply higher requirements. Finally, DNB has been given data collection powers to support its financial stability task. This has been arranged by an adjustment in the Bank Act, from 2015 onwards. Highlight main developments since last year's survey: Web-links to relevant documents:

			Policies: Lessons from International Experience (Aug 2016) CGFS report on Experiences with the ex ante appraisal of macroprudential instruments (Jul 2016) CGFS report on Objective-setting and communication of macroprudential policies (Nov 2016)	macro-prudential authorities to meet the intermediate objectives. The Recommendation gives an indicative list of instruments that national macro-prudential authorities can use to fulfil their mandate. These instruments, as shaped in the implementation of the CRD-IV, are conferred on the Dutch central bank (DNB). In the execution of its new role as macroprudential authority, the Dutch central bank executes a 'macroprudential policy cycle', consisting of the following stages: (i) the risk identification stage, where vulnerabilities are detected and assessed (against the intermediate objectives) and relevant indicators and thresholds are defined; (ii) the instrument selection and calibration stage; (iii) the implementation and communication stage, where instruments are activated; and (iv) the evaluation phase, where the impact of instruments is assessed in view of possible adjustment/de-activation. DNB has introduced a systemic risk buffer for four of largest Dutch banks under. It has also sent a notification to the ESRB regarding this measure, which details the selection, calibration and application in more detail. VI.	Enhancing and aligning	accounting standards			
15 (15)	Consistent application of high-quality accounting standards	Regulators, supervisors, and accounting standard setters, as appropriate, should work with each other and the private sector on an ongoing basis to ensure consistent application and enforcement of high-quality accounting standards. (Washington)	Jurisdictions should indicate the accounting standards that they follow and whether (and on what basis) they are of a high and internationally acceptable quality (e.g. equivalent to IFRSs as published by the IASB), and provide accurate and relevant information on financial position and performance. They should also explain the system they have for enforcement of consistent application of those standards. Jurisdictions may want to refer to their jurisdictional profile prepared by the IFRS Foundation, which can be accessed at: http://www.ifrs.org/Use-around-the-world/Pages/Analysis-of-the-G20-IFRS-profiles.aspx . As part of their response on this recommendation, jurisdictions should indicate the policy measures taken for appropriate application of fair value recognition, measurement and disclosure. In addition, jurisdictions should set out any steps they intend to take (if appropriate) to foster transparent and consistent implementation of the new accounting requirements for the measurement of expected credit losses on financial assets that are being introduced by the IASB and FASB.	□Not applicable □Applicable but no action envisaged at the moment If "Not applicable" or "Applicable but no action envisaged" has been selected, please provide a brief justification: □Implementation ongoing: Status of progress [for legislation and regulation/guidelines only]: □Draft in preparation, expected publication by: □Draft published as of: □Final rule or legislation approved and will come into force on: □Final rule (for part of the reform) in force since: □Implementation completed as of: 01.01.2005 Issue is being addressed through: □Primary / Secondary legislation □Regulation /Guidelines □Other actions (such as supervisory actions), please specify: Short description of the content of the legislation/regulation/guideline: The EU adopted in 2002 a regulation to adopt IFRS (i.e. the IAS Regulation). Since January 2005, the IFRS are mandatory for the consolidated accounts of listed companies. Enforcement of	Planned actions (if any) and expected commencement date: New standards, amendments or interpretation provided by the IASB will continue to go through due process of endorsement before becoming law in the EU. VII.	Enhancing risk manager	nent			
16 (16)	Enhancing guidance to strengthen banks' risk management practices, including on liquidity and foreign currency funding risks	Regulators should develop enhanced guidance to strengthen banks' risk management practices, in line with international best practices, and should encourage financial firms to re-examine their internal controls and implement strengthened policies for sound risk management. (Washington) National supervisors should closely check banks' implementation of the updated guidance on the management and supervision of liquidity as part of their regular supervision. If banks' implementation of the guidance is inadequate, supervisors will take more prescriptive action to improve practices. (Rec. II.10, FSF 2008) Regulators and supervisors in emerging markets ² will enhance their supervision of banks' operation in foreign currency funding markets. (FSB 2009)	 Jurisdictions should indicate the measures taken in the following areas: guidance to strengthen banks' risk management practices, including BCBS good practice documents (Corporate governance principles for banks, External audit of banks, and the Internal audit function in banks); measures to monitor and ensure banks' implementation of the BCBS Principles for Sound Liquidity Risk Management and Supervision (Sep 2008); measures to supervise banks' operations in foreign currency funding markets;¹ and extent to which they undertake stress tests and publish their results. Jurisdictions should not provide any updates on the implementation of Basel III liquidity requirements (and other recent standards such as capital 	□Not applicable □Applicable but no action envisaged at the moment If "Not applicable" or "Applicable but no action envisaged" has been selected, please provide a brief justification: □Implementation ongoing: Status of progress [for legislation and regulation/guidelines only]: □Draft in preparation, expected publication by: □Draft published as of: □Final rule or legislation approved and will come into force on: □Final rule (for part of the reform) in force since: ☑Implementation completed as of: 01.01.2014 Issue is being addressed through: □Primary / Secondary legislation □Regulation /Guidelines □Other actions (such as supervisory actions), please specify:	Planned actions (if any) and expected commencement date: Web-links to relevant documents:

		We commit to conduct robust, transparent stress tests as needed.	requirements for CCPs), since these are monitored separately by the BCBS.	Short description of the content of the legislation/ regulation/guideline:	
		(Pittsburgh)		We refer to the response of the European Commission.	
				Highlight main developments since last year's survey:	
				Liquidity risk management is still one of the key elements of our supervisory practice and policy. The LCR has become a legal requirement, which the banks have to adhere to. The level of LCR is further phased-in. The NSFRframework from the Basel Committee is worked-out in a proposal by the European Commission, which is currently being discussed. Furthermore, the SSM, together with DNB and its other members, developed (upgraded) and implemented a liquidity assessment process of the banks liquidity positions as part of the SREP (Supervisory Review and Evaluation Process). This process is based on three pillars. The first pillar is the risk assessment where, based on qualitative information and quantitative supervisory data, several liquidity metrics are determined and judged by the supervisor. This is complimented in the second pillar with the assessment of the banks' ILAAP (Internal Liquidity Adequacy Assessment Procedure) – the banks own assessment of its liquidity risk - and in the third pillar the execution of a strong liquidity stress test. If the assessment of the three pillars identifies weaknesses, mitigating measures are imposed on the banks.

				credit institutions pay risk-based contributions to the newly installed ex ante funded Deposit Guarantee Fund, which is set to reach a target level of 0.8% of covered deposits by July 2024. The Dutch Central Bank decides on contributions payable to the Fund; it also decides on pay outs from the Fund to depositors or the financing to be made available by the Fund for resolution in accordance with the Bank Recovery Resolution Directive (BRRD). Implementation of the DGSD has also resulted in a gradually reducing deadline for pay out to depositors (from 20 working days to 7 working days by 1 January 2024), and will ensure depositors are adequately informed of DGS coverage. IX.	Safeguarding the integri	ty and efficiency of financial markets			
19 (19)	Enhancing market integrity and efficiency	We must ensure that markets serve efficient allocation of investments and savings in our economies and do not pose risks to financial stability. To this end, we commit to implement initial recommendations by IOSCO on market integrity and efficiency, including measures to address the risks posed by high frequency trading and dark liquidity, and call for further work by mid-2012. (Cannes)	Jurisdictions should indicate whether high frequency trading and dark pools exist in their national markets. Jurisdictions should indicate the progress made in implementing the recommendations: • in relation to dark liquidity, as set out in the IOSCO Report on Principles for Dark Liquidity (May 2011). • on the impact of technological change in the IOSCO Report on Regulatory Issues Raised by the Impact of Technological Changes on Market Integrity and Efficiency (Oct 2011). • on market structure made in the IOSCO Report on Regulatory issues raised by changes in market structure (Dec 2013).	□ Not applicable □ Applicable but no action envisaged at the moment If "Not applicable" or "Applicable but no action envisaged" has been selected, please provide a brief justification: ☑ Implementation ongoing: Status of progress [for legislation and regulation/guidelines only]: □ Draft in preparation, expected publication by: □ Draft published as of: ☑ Final rule or legislation approved and will come into force on: 03.01.2018 (MIFID II) ☑ Final rule (for part of the reform) in force since: 03.07.2016 (MAD) □ Implementation completed as of: Issue is being addressed through: □ Primary / Secondary legislation □ Regulation /Guidelines □ Other actions (such as supervisory actions), please specify: Short description of the content of the legislation/ regulation/guideline: The revised Markets in Financial Instruments Directive (commonly called MiFID II) and Market Abuse Regulation (MAR) have both been agreed and have entered into force in July 2014 . MiFID	Planned actions (if any) and expected commencement date: Work on the secondary European legislation necessary for the implementation of MIFID II is well underway; the bulk of the delegated rules is currently being translated by the European Commission. The delegated rules are expected to enter into force spring 2017. The rules shall apply from 3 January 2018. National implementation of MiFID II and delegated rules is well underway. The primary implementing bill has been sent to Parliament. The secondary implementing bill will be publicly consulted in the coming months. MAR entered into application on 3 July 2016. X.	Enhancing financial con	sumer protection			
22 (22)	Enhancing financial consumer protection	We agree that integration of financial consumer protection policies into regulatory and supervisory frameworks contributes to strengthening financial stability, endorse the FSB report on consumer finance protection and the high level principles on financial consumer protection prepared by the OECD together with the FSB. We will pursue the full application of these principles in our jurisdictions. (Cannes)	Jurisdictions should describe progress toward implementation of the OECD's G-20 high-level principles on financial consumer protection (Oct 2011). Jurisdictions may also refer to OECD's September 2013 and September 2014 reports on effective approaches to support the implementation of the High-level Principles. The effective approaches are of interest across all financial services sectors – banking and credit; securities; insurance and pensions – and consideration should be given to their cross-sectoral character when considering implementation. Jurisdictions should, where necessary, indicate any changes or additions that have been introduced as a way to support the implementation of the High-level Principles, to address particular national terminology, situations or determinations.	□ Not applicable □ Applicable but no action envisaged at the moment If "Not applicable" or "Applicable but no action envisaged" has been selected, please provide a brief justification: □ Implementation ongoing: Status of progress [for legislation and regulation/guidelines only]: □ Draft in preparation, expected publication by: □ Draft published as of: □ Final rule or legislation approved and will come into force on: □ Final rule (for part of the reform) in force since: □ Implementation completed as of: 01.01.2006 Issue is being addressed through: □ Primary / Secondary legislation □ Regulation /Guidelines □ Other actions (such as supervisory actions), please specify: Initiatives of the platform for financial education "Wijzer in Geldzaken" Short description of the content of the	Planned actions (if any) and expected commencement date: PRIIPS: PRIIPs shall apply from 1 Januari 2018. 				secondary legislation. In the Financial Supervision Act the main rules concerning conflicts of interest, the provision of information concerning the product and service (execution only, advice) to consumers, are regulated. In the secondary legislation the rules on these topics are more detailed. Furthermore the secondary legislation contains rules concerning the product governance process and inducements (including the ban on third party inducements for the provision of services with regard to complex financial products, mortgage credit and some insurance products (e.g. life insurance, disability insurance). The Netherlands Authority for the Financial Markets (Autoriteit Financiële Markten (AFM)) is the dedicated supervisory authority. The AFM supervises the conduct of the entire financial market sector: savings, investment, insurances and loans.	
				Highlight main developments since last year's survey: MCD The mortgage credit directive is implemented in national law and is entered into force on 14 July 2016. Payment Accounts Directive The national legislation concerning the access to payment accounts with basic features and the comparison website has entered into force on 11 November 2016. Other parts of the PAD will be regulated in secondary legislation that is still in procedure. It is expected that this legislation will enter into force in mid-2017. PRIIPS: PRIIPs is entered into force on 31 December 2016.
