# 2013 IMN Survey of National Progress in the Implementation of G20/FSB Recommendations

- I. Refining the regulatory perimeter
- II. Hedge funds
- III. Securitisation
- IV. Enhancing supervision
- V. Building and implementing macroprudential frameworks and tools
- VI. Improving oversight of credit rating agencies (CRAs)
- VII. Enhancing and aligning accounting standards
- VIII. Enhancing risk management
- IX. Strengthening deposit insurance
- X. Safeguarding the integrity and efficiency of financial markets
- **XI.** Enhancing financial consumer protection
- XII. Reference to source of recommendations
- **XIII.** List of Abbreviations

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
I.	Refining the regulator	y perimeter			
(1)	Review of the boundaries of the regulatory framework including strengthening of oversight of shadow banking	We will each review and adapt the boundaries of the regulatory framework to keep pace with developments in the financial system and promote good practices and consistent approaches at an international level. (London)  We agree to strengthen the regulation and oversight of the shadow banking system. (Cannes)	Jurisdictions should indicate the steps taken to expand the domestic regulatory framework to previously unregulated entities, for example, non-bank financial institutions (e.g. finance companies, mortgage insurance companies, credit hedge funds) and conduits/SIVs etc.  Jurisdictions should indicate policy measures to strengthen the regulation and oversight of the shadow banking system. See, for reference, the recommendations discussed in section 2 of the October 2011 FSB report: Shadow Banking:  Strengthening Oversight and Regulation.	Implementation ongoing or completed If "Not applicable "or "Applicable but no action envisaged" has been selected, please provide a brief justification:  Issue is being addressed through:    Primary / Secondary legislation     Regulation /Guidelines     Other actions (such as supervisory actions), please specify: Please see below  Status of progress:   Reform effective (completed) as of: Enhanced oversight of Canada Derivatives Clearing Corporation and Clearnet's SwapClear by the Bank under the Payment Clearing and Settlement Act (April 2012 and April 2013 respectively); Policy recommendations for Money Market Funds (October 2012)  Short description of the content of the legislation/ regulation/guideline: On December 22, 2011, the Supreme Court of Canada found that provinces and Parliament share responsibility for securities regulation, with Parliament having a role regarding matters of genuine national importance and scope, including maintaining the integrity and stability of the financial system, preserving fair, efficient and competitive	Planned actions (if any):  Canada will continue to participate on the various FSB workstreams.  The Canadian Securities Administrators (CSA), a voluntary umbrella organization of Canada's provincial and territorial securities regulators whose objective is to improve, coordinate and harmonize regulation of the Canadian capital markets is currently in the process of revising the rules for securitized products to take into consideration the comments received and steps needed to ensure international harmonization, taking into consideration the features of the Canadian market.  Expected commencement date:  Web-links to relevant documents:

<sup>&</sup>lt;sup>1</sup> This recommendation will be retained until the monitoring framework for shadow banking, which is one of the designated priority areas under the CFIM, is established.

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				national capital markets, and preventing	
				and responding to systemic risks, such as	
				those posed by over-the-counter	
				derivatives. The 2013 federal budget	
				confirmed that if an agreement with	
				provinces on the cooperative	
				establishment of a common securities	
				regulator is not reached in the near term,	
				the federal government will propose	
				legislation to ensure it can carry out its	
				regulatory responsibilities for capital	
				markets consistent with the decision of	
				the Supreme Court.	
				Office of the Superintendent of Financial	
				Institutions (OSFI) has initiated	
				supervisory work to examine Canadian	
				banks' exposures to and potential risks	
				from shadow banking entities, in the	
				context of the Canadian marketplace.	
				Canada participates on each of the 5 FSB	
				Shadow Banking workstreams.	
				The Bank of Canada (BoC) is expanding	
				resources devoted to assessing risks and	
				vulnerabilities in the financial system,	
				including the shadow banking system.	
				For example, following the	
				recommendations of the FSB Shadow	
				Banking Task Force, Canada conducted	
				its first annual monitoring exercise to	
				assess trends and risks in shadow	
				banking led by the BoC. This study fed	
				into the global exercise coordinated by	
				the FSB Standing Committee on	
				the 1 3D Standing Committee on	

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				Research (SCRR), which will monitor	
				and assess proposals in identifying and	
				mitigating system risk, including	
				systemic risk indicators, the perimeter of	
				regulation, shadow banking and SIFIs.	
				The CSA have established several	
				processes and mechanisms to address	
				perimeter of regulation issues. For	
				example, the CSA has several policy	
				committees that deal with various issues	
				that could affect the perimeter of	
				regulation, including: securitization,	
				financial innovation, investment fund	
				regulation, and unregulated market	
				service providers.	
				The mandate of the CSA's Systemic Risk	
				Committee (SRC) is: to develop and	
				implement a process to follow up on	
				and/or monitor identified systemic risks,	
				or related knowledge gaps, in the	
				Canadian capital markets from time to	
				time, based on perceived need, to	
				conduct comprehensive or targeted	
				assessments of systemic risk in the	
				Canadian capital markets; and to	
				continue to build knowledge of systemic	
				risks within the CSA, including how such	
				risks may be transmitted as well as	
				identified.	
				The SRC also works with its domestic	
				and foreign regulatory peers. The SRC	
				has been coordinating quarterly inter-	
				agency calls on systemic risk, including	
				agency cans on systemic risk, including	

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				staff of the ASC, AMF, BCSC, OSC, the	
				BoC, OSFI, the Federal Department of	
				Finance, and Investment Industry	
				Regulatory Organization of Canada	
				(IIROC). The inter-agency calls have	
				allowed staff to discuss matters with	
				potential systemic risk implications	
				including shadow banking, securitized	
				investments, hedge funds, ETPs, money	
				market funds, the potential shortage of	
				safe assets for collateral, search for	
				yields, benchmarks, cyber-security and	
				global macroeconomic conditions.	
				Heads of Agencies (HoA)	
				The Heads of Agencies committee is	
				chaired by the Governor of the BoC and	
				includes four provincial Securities	
				Regulators (i.e. the Ontario Securities	
				Commission (OSC), Autorité des	
				marchés financiers (AMF), Alberta	
				Securities Commission (ASC), and	
				British Columbia Securities Commission	
				(BCSC)), the Department of Finance, and	
				OSFI. This forum, which meets at least	
				quarterly, allows federal authorities and	
				provincial securities market regulators to	
				exchange information and views and to	
				coordinate actions on issues of mutual	
				concern that are affecting the Canadian	
				financial sector.	
				Currently, the HoA's main focus	
				includes ensuring a sound regulatory	
				framework, driven by Canada's efforts to	

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				implement its G20 commitments, which	
				are intended to address, among other	
				issues, systemic risk issues, such as OTC	
				derivatives and shadow banking.	
				As mentioned previously, the SRC also	
				interacts directly with staff from the	
				other HoA agencies to discuss events,	
				trends and policy initiatives relevant to	
				systemic risk. This inter-agency group	
				meets at least quarterly and also includes	
				IIROC, which oversees investment	
				dealers and trading activity on debt and	
				equity marketplaces in Canada.	
				IOSCO's Standing Committee on Risk	
				and Research	
				In addition, the ASC, AMF, and OSC are	
				members of IOSCO's Standing	
				Committee on Risk and Research (the	
				"SCRR"). Participation in the SCRR has	
				brought additional international	
				perspective to the SRC and reaffirmed, at	
				least to the SRC's comfort, that the	
				SRC's methods and processes broadly	
				follow Principles 6 and 7 of IOSCO's	
				Objectives and Principles of Securities	
				Regulation.	
				In November 2012, CSA members	
				completed a detailed thematic review	
				survey prepared by IOSCO's Assessment	
				Committee to determine the CSA's level	
				of implementation of two of IOSCO's	
				new Principles, namely: Principle 6	
				(systemic risk) and Principle 7 (perimeter	

1	<b>G20/FSB Recommendations</b>	Remarks	Progress to date	Next steps
			of regulation). The results of this exercise	
			have been finalized and will be published	
			in the Fall of 2013.	
			<b>Money Market Funds</b>	
			On February 9, 2012, the CSA	
			introduced amendments to their national	
			instruments (rules) in order to impose	
			new investment restrictions for money	
			market funds. These include, among	
			other things, new liquidity provisions and	
			a restriction on aggregating certain types	
			of short-term	
			debt on the fund's statement of	
			investment portfolio (increasing	
			transparency for investors). Money	
			market funds had until October 2012 to	
			bring their portfolios into compliance	
			with new requirements.	
			In addition, both the AMF and OSC are	
			members of IOSCO's Committee 5 on	
			Investment Management, which had the	
			mandate to develop policy	
			recommendations for money market	
			funds. The final policy recommendations	
			for money market funds were published	
			in October 2012.	
			OTC Derivatives and CCP for Fixed	
			Income and Repos	
			In terms of Canadian efforts to manage	
			and mitigate the risks that have already	
			come to light, largely as a result of the	
			financial crisis and the lessons we	
			learned from it, staff from the federal and	

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				provincial agencies have been	
				coordinating policy initiatives more	
				generally with regards to OTC	
				derivatives, hedge funds, and a CCP for	
				fixed income and repos.	
				With respect to OTC derivatives,	
				Canadian authorities decided not to	
				mandate clearing in Canada, but rather to	
				permit clearing of standardized	
				derivative products through globally-	
				based CCPs provided that they comply	
				with the Principles for Financial Market	
				Infrastructure published by CPSS-	
				IOSCO and that the safeguards identified	
				by the FSB are met.	
				Effective 2 April 2013, the BoC	
				designated LCH. Clearnet's SwapClear	
				as subject to oversight by the Bank under	
				the Payment Clearing and Settlement	
				Act.	
				Furthermore, the AMF, BoC and OSC	
				have been working with the Canadian	
				Derivatives Clearing Corporation	
				(CDCC) regarding the development of its	
				CCP system for fixed income trades	
				including repos to lower the level of	
				systemic risk in this market. In addition,	
				a working committee composed of	
				representatives from the OSC, AMF,	
				British Columbia Securities Commission	
				(BCSC) and the BoC are engaged in a	
				review to ensure that the Canadian	
				Depository for Securities Limited (CDS)	

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				and CDCC are meeting the recently	
				adopted Principles for Financial Market	
				Infrastructures.	
				Securitization	
				Please refer to Section III, Item 8	
				CSA's Securitization Initiatives	
				Please refer to Section III, Item 5

II.	Hedge funds				
2 (3)	Registration, appropriate disclosures and oversight of hedge funds	We also firmly recommitted to work in an internationally consistent and non-discriminatory manner to strengthen regulation and supervision on hedge funds(Seoul)  Hedge funds or their managers will be registered and will be required to disclose appropriate information on an ongoing basis to supervisors or regulators, including on their leverage, necessary for assessment of the systemic risks they pose individually or collectively. Where appropriate registration should be subject to a minimum size. They will be subject to oversight to ensure that they have adequate risk management. (London)	Jurisdictions should indicate the progress made in implementing the high level principles contained in IOSCO's Report on Hedge Fund Oversight (Jun 2009) that inter-alia included mandatory registration and on-going regulatory requirements such as disclosure to investors.	Implementation ongoing or completed  If "Not applicable " or "Applicable but no action envisaged" has been selected, please provide a brief justification:  Issue is being addressed through:  Primary / Secondary legislation  Regulation /Guidelines  Other actions (such as supervisory actions), please specify:  Status of progress:  Reform effective (completed) as of September 2008 and ongoing  Short description of the content of the legislation/ regulation/guideline:  In Canada, hedge fund managers are required to be registered under securities laws under National Instrument 31-103 (Respecting Registration Requirements, Exemptions and Ongoing Registrant Obligations), which came into force on September 28, 2009.  In the provinces of Ontario, Quebec and Newfoundland and Labrador, nonresident hedge fund managers (hedge fund managers that do not have their head office or their principal place of business in a jurisdiction of Canada or do not have a place of business in the local jurisdiction) are required to be registered	Planned actions (if any):  Expected commencement date: Web-links to relevant documents:

III.	Securitisation				
5	Improving the risk	During 2010, supervisors and regulators	Jurisdictions should indicate the progress	Implementation ongoing or completed	Planned actions (if any):
(7)	management of securitisation	will:  • implement IOSCO's proposals to strengthen practices in securitisation markets. (FSB 2009)	made in implementing the recommendations contained in:  • IOSCO's Report on Global  Developments in Securitisation  Regulation (Nov 2012) including justification for any exemptions to	If "Not applicable " or "Applicable but no action envisaged" has been selected, please provide a brief justification:  Issue is being addressed through:  Primary / Secondary legislation	OSFI will continue to follow closely the work of FSB (WS4 on Securitization) and the domestic work of Canadian Securities Administrators (CSA).
(8)		The BCBS and authorities should take	IOSCO requirements; and	□ Regulation / Guidelines	
		forward work on improving incentives for risk management of securitisation,	BCBS's Basel 2.5 standards on	☐ Other actions (such as supervisory actions), please specify:	Expected commencement date:
		including considering due diligence and quantitative retention requirements by 2010. (London)  Securitization sponsors or originators should retain a part of the risk of the underlying assets, thus encouraging them to act prudently. (Pittsburgh)	exposures to securitisations (Jul 2009), http://www.bis.org/publ/bcbs157.pdf and http://www.bis.org/publ/bcbs158.pdf	OSFI issued domestic guidance, in the form of an Advisory, in October 2008 that established OSFI's expected practices around the risk management of securitization exposures, including the management of reputational and concentration risks.  The BCBS subsequently issued "Enhancements to the Basel II Framework" in July 2009, which expanded upon this domestic Advisory. OSFI has incorporated the Basel II enhancements, as well as expected practices from its 2008 Advisory not otherwise addressed by the Enhancements, in the domestic capital adequacy requirements (CAR) guideline, with the most recent revisions coming into effect January 1, 2013.  OSFI participates in the BCBS Policy	Web-links to relevant documents:

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				Development Group working on external	
				ratings and securitization.	
				Status of progress :	
				□ Draft in preparation, expected publication by: End of 2013	
				Short description of the content of the legislation/ regulation/guideline:	
				CSA's Securitization Initiatives	
				In April 2011, members of the CSA	
				published a draft regulatory framework	
				entitled "Proposed Securitized Product	
				Rules" to improve investor protection	
				through enhanced transparency and	
				disclosure requirements as well as to	
				modify the current exemptions that	
				investors use to access these products in	
				the exempt market.	
				The main features of that framework	
				included: enhanced prospectus disclosure	
				requirements for securitized products	
				issued by reporting issuers; new	
				prospectus exemption rules for	
				securitized products that require, in most	
				cases, the delivery of an "information	
				memorandum" to investors; a narrower	
				class of investors who can buy products	
				on a prospectus exempt basis; and	
				continuous disclosure and prescribed	
				monthly reporting obligations for both	
				reporting issuers and issuers in the	
				exempt market.	
				One of the issues that the CSA was	

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				seeking comment on is whether there	
				should be requirements that	
				securitizations be structured in a	
				particular manner, such as requiring that	
				sponsors or other transaction parties	
				retain a minimum tranche or tranches of	
				the securitization (a "skin-in-the-game"	
				or risk retention requirement). The draft	
				regulatory framework proposed by the	
				CSA would only have imposed	
				disclosure of risk retention measures	
				taken by promoters and issuers.	
				The proposed amendments to the	
				regulation will be published for comment	
				in 2013. The CSA expect that the	
				proposed amendments will be a final	
				rule, and will only address the	
				distribution of asset-backed commercial	
				paper in the exempt market. Issuers	
				wishing to avail themselves of the	
				exemption would have to provide	
				reasonable access to an "information	
				memorandum" to investors and comply	
				with continuous disclosure obligations.	
				The exemption will only be available for	
				the sale of asset-backed commercial	
				paper that meets a number of eligibility	
				enhancements. The rule would only	
				impose disclosure of risk retention	
				measures taken by promoters and issuers.

	Description		Remarks	information with other regulators. As mentioned earlier (please refer to Section II, Item 2), the AMF, BCSC, ASC and the OSC have entered into MoUs with various international bodies. The OSC is currently developing a compliance program based on the requirements set out in NI 25-101, which should be in place in the summer of 2013. One of the objectives of the compliance program is to determine, through the review process, whether CRAs are complying with the requirements imposed in NI 25-101. The compliance program will focus on areas of operations of CRAs that are considered to be material for investor protection and efficient capital markets. The compliance program will also address the requirements of the three sections of the IOSCO CRA Code, namely, the Quality and Integrity of the Rating Process, CRA Independence and the Avoidance of Conflicts of Interest and CRA Responsibilities to the Investing Public and Issuers.

## FSB FINANCIAL STABILITY 2013 IMN Survey of National Progress in the Implementation of G20/FSB Recommendations

17 Reducing t (26) on ratings	g the reliance			Next steps
		We also endorsed the FSB's principles on reducing reliance on external credit ratings. Standard setters, market participants, supervisors and central banks should not rely mechanistically on external credit ratings. (Seoul)  Authorities should check that the roles that they have assigned to ratings in regulations and supervisory rules are consistent with the objectives of having investors make independent judgment of risks and perform their own due diligence, and that they do not induce uncritical reliance on credit ratings as a substitute for that independent evaluation. (Rec IV. 8, FSF 2008)  We reaffirm our commitment to reduce authorities' and financial institutions' reliance on external credit ratings, and call on standard setters, market participants, supervisors and central banks to implement the agreed FSB principles and end practices that rely mechanistically on these ratings. (Cannes)	No information on this recommendation will be collected in the current IMN survey since a thematic peer review is taking place in this area during 2013.

X.	Safeguarding the integ	rity and efficiency of financial markets	3		
24 (39)	Enhancing market integrity and efficiency	We must ensure that markets serve efficient allocation of investments and savings in our economies and do not pose risks to financial stability. To this end, we commit to implement initial recommendations by IOSCO on market integrity and efficiency, including measures to address the risks posed by high frequency trading and dark liquidity, and call for further work by mid-2012. (Cannes)	Jurisdictions should indicate the progress made in implementing the following IOSCO reports:  • Report on Regulatory Issues Raised by the Impact of Technological Changes on Market Integrity and Efficiency (Oct 2011); and  • Report on Principles for Dark Liquidity (May 2011).	Implementation ongoing or completed  If "Not applicable "or "Applicable but no action envisaged" has been selected, please provide a brief justification:  Issue is being addressed through:  Primary / Secondary legislation  Regulation / Guidelines  Other actions (such as supervisory actions), please specify: Please see below  Status of progress:  Reform effective (completed) as of: 2012 and ongoing  Short description of the content of the legislation/ regulation/guideline:  The AMF and the OSC have representatives on IOSCO's Committee 2, which prepared reports on regulatory issues raised by changes in market structure by the impact of IT on market integrity and efficiency, and IT challenges to effective market surveillance issues.  With the structure of the market surveillance activities, the functions performed by either the IIROC (equity), the Bourse de Montréal (Bourse) (financial derivatives) and ICE Futures Canada (ICE) -(commodity derivatives), and of the current initiatives, Canada	Planned actions (if any):  Expected commencement date: Web-links to relevant documents:

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				complies with the majority of the	
				recommendations and is well-positioned	
				to comply with the remaining ones soon.	
				The legislation and rules in place ensure	
				the effectiveness of the market	
				surveillance by market authorities.	
				Customer identification is currently	
				missing on the information provided	
				electronically to the CSA but can be	
				obtained on an upon request basis. A	
				mandate to address that issue, by the end	
				of June 2014, is in place.	
				Format of the information is not an issue.	
				There is no cross-assets surveillance, but	
				front-line surveillances activities are	
				clearly defined between IIROC, the	
				Bourse and ICE. IIROC and the Bourse	
				share information under a MOU with	
				respect to market surveillance.	
				Data information is encrypted and access	
				controls to the surveillance tools are in	
				place.	
				Under National Instrument 21-101,	
				synchronization of clocks is required by	
				the marketplaces, by the dealers trading	
				on marketplaces and by the information	
				processor which receives data.	
				The regulators are relying on the IOSCO	
				multilateral MOU for cross-border	
				enforcement activities. IIROC and the	
				exchanges are relying on the Inter-market	
				Surveillance Group agreement for cross-	
				border enforcement. In addition,	

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
				regulators have MOUs in place with the	
				SEC, UK FSA and ASIC and three others	
				are being developed.	
				On May 15, 2013, the AMF led the	
				publication of Request for Information	
				(RFI) seeking information from potential	
				suppliers of components for a Market	
				Analysis Platform (MAP) or a Market	
				Analysis Platform in its entirety with a	
				potential Canadian Securities	
				Administrators scope.	
				Dark Liquidity:	
				The framework with respect to dark	
				liquidity for equity trading was revised in	
				2012 and has been implemented through	
				amendments NI 21-101 and to the	
				Universal Market Integrity Rules (UMIR)	
				administered by IIROC.	
				The framework continues to allow dark	
				liquidity trading, but manages its impact	
				on price discovery, fairness and market	
				efficiency.	
				Dark orders can execute at the	
				NBBO in circumstances where the	
				contra-side was entered at a size level that	
				exceeds a threshold, and meaningful price	
				improvement is required otherwise;	
				On a marketplace, visible orders	
				must be executed before dark orders at	
				the same price;	
				Meaningful price improvement is	
				defined in UMIR (usually one trading	
				increment or one cent).	

No	Description	G20/FSB Recommendations	Remarks	Progress to date	Next steps
	_			Electronic Trading Requirements	
				The CSA and IIROC have developed	
				rules, National Instrument 23-103	
				Electronic Trading (NI 23-103), that	
				require dealers and exchanges to manage	
				the risks of electronic trading, including	
				the use of algorithms.	
				NI 23-103 sets out requirements with	
				respect to controls, policies and	
				procedures that are applicable to	
				marketplace participants and	
				marketplaces. IIROC also introduced	
				supervision and gatekeeper obligations	
				for its dealer members.	
				On July 4, 2013, the CSA made	
				amendments to NI 23-103 to impose	
				requirements on participant dealers that	
				provide direct electronic access. IIROC	
				also adopted amendments to UMIR and	
				its Dealer Member Rules in that respect	
				on the same date. The new requirements	
				will come into force on March 1, 2014.	
				The CSA are conducting a trading risk	
				review that is intended to identify any gap	
				in the regulatory requirements. IIROC is	
				currently in the third phase of a study	
				regarding the impact of HFT on the	
				integrity and quality of Canadian markets	
				which could lead to further regulatory	
				action.

		Imalicial fisks. (200 Ca005)		☐ Draft published as of: June 6, 2013	
				Short description of the content of the legislation/ regulation/guideline:	
				In June 2011, the CSA Derivatives Committee published Consultation Paper 91-402 on Trade Repositories, in which the committee recommends that "Each derivative market participant should be assigned a unique legal entity identifier based on universal internationally accepted standards." In December 2012, the CSA Derivatives Committee published Consultation Paper 91-301 – Model Provincial Rule "Trade Repositories and Derivatives Data Reporting". In June 2013, the Autorité des marchés financiers published local draft regulation "Regulation 91-507 respecting trade	
				repositories and derivatives data reporting" for comment (as did the

				Ontario Securities Commission and the	
				Manitoba Securities Commission), which	
				recommends the following:	
				30 (1) A recognized trade repository must	
				identify each counterparty to a transaction	
				that is subject to the reporting obligation	
				under this Rule in all recordkeeping and	
				all reporting required under this Rule by	
				means of a single legal entity identifier.	
				(2) Each of the following rules apply	
				to legal entity identifiers:	
				a. a legal entity identifier must be a	
				unique identification code	
				assigned to a counterparty in	
				accordance with the standards set	
				by the Global Legal Entity	
				Identifier System;	
				b. each local counterparty must	
				comply with all applicable	
				requirements imposed by the	
				Global Legal Entity Identifier	
				System.	
				(3) Despite subsection (2), if the	
				Global Legal Entity Identifier System is	
				unavailable to a counterparty at the time	
				when a reporting obligation under this	
				Regulation arises, all of the following	
				rules apply:	
				a. each counterparty must obtain a	
				substitute legal entity identifier	
				which complies with the	
				standards established March 8,	
				2013 by the LEI Regulatory

				Oversight Committee for pre-	
				legal entity identifiers;	
				b. a local counterparty must use the	
				substitute legal entity identifier	
				until a legal entity identifier is	
				assigned to the counterparty in	
				accordance with the standards set	
				by the Global Legal Entity	
				Identifier System as required	
				under paragraph (2)(a), and;	
				c. after the holder of a substitute	
				legal entity identifier is assigned	
				a legal entity identifier in	
				accordance with the standards set	
				by the Global Legal Entity	
				Identifier System as required	
				under paragraph (2)(a), the local	
				counterparty must ensure that it is	
				identified only by the assigned	
				identifier in all derivatives data	
				reported pursuant to this	
				Regulation in respect of	
				transactions to which it is a	
				counterparty.	
				The Ontario Securities Commission and	
				the British Columbia Securities	
				Commission also joined the ROC as	
				member and observer, respectively.
