Regulatory and supervisory modernisation: public outreach event

15 December 2026, Virtual, 13:00 – 15:00 CET

Summary agenda

Background:

On 14 October 2026, the Financial Stability Board (FSB) published a consultation report on Regulatory and Supervisory Modernisation Principles. The report sets out eight high-level principles for financial authorities in FSB member jurisdictions. These principles are intended to support efforts to ensure that regulatory and supervisory frameworks are forward-looking and responsive to new vulnerabilities, technologies, offerings and economic conditions. The FSB invites comments on the consultation report by 8 January 2027.

The event, which is open to the public with advance registration, aims to broaden public awareness of the principles and solicit feedback for consideration in the final report.

The event will be chaired by Denis Beau, First Deputy Governor of the Banque de France and Peter Routledge, Superintendent of Financial Institutions for the Office of the Superintendent of Financial Institutions, the Co-chairs of the Working Group on Modernisation that prepared the consultation report. The event will cover the FSB's proposed principles, with presentations from FSB member authorities and representatives of industry and academia.

Michelle Bowman, Vice Chair for Supervision at the Board of Governors of the Federal Reserve System and Chair of the FSB Standing Committee on Regulatory and Supervisory Cooperation, will provide opening remarks.

A more detailed agenda will published in due course.
